ICPSR PROCESSING NOTES FOR #38050

Kickstarter Data, Global, 2009-2023

DS 3: Backer Location

1. **Extent of Processing:** Due to formatting differences and statistical package limitations, there are several instances of problematic characters within open-ended responses in the original data file. These characters have been left as-is in the data files where possible, but ICPSR replaced some of these characters in order to produce a valid DDI file.
2. **Translation:** Due to statistical software limitations ICPSR has translated the Arabic text in the variable **USER_LOCATION_STATE**.

ICPSR translation	Original Text
[ARABIC: Akkar]	عكار
[ARABIC: Chaouia]	الشاوية
[ARABIC: Doukkala-Abda]	دكالة عبدة

Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, arithmetic mean, median, mode, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.
